Executive Summary

The Youth Risk Behavior Survey (YRBS) was administered in the South Heartland District, Nebraska by the South Heartland District Health Department in the fall of 2012. The YRBS was administered to 816 students from grades 9-12 in ten high schools in the South Heartland District. Students were selected using random sampling procedures provided by the Centers for Disease Control and Prevention (CDC). The 2012 YRBS survey instrument can be found in Appendix A.

Data were collected, entered, and verified for response eligibility. Five student's responses are excluded from the analysis. These students provided five or more out of range answers leading to this exclusion.

Frequency distributions are presented by the eight areas covered in the YRBS following the Executive Summary. The report consists of tables detailing responses for each answer for each question, presented by gender and grade.

Any questions regarding this report or the data collected can be directed to the Bureau of Sociological Research at the University of Nebraska-Lincoln by calling (402) 472-3672, or by sending an e-mail to *bosr@unl.edu*.

This survey is about health behavior. It has been developed so you can tell us what you do that may affect your health. The information you give will be used to improve health education for young people like yourself.

DO NOT write your name on this survey. The answers you give will be kept private. No one will know what you write. Answer the questions based on what you really do.

Completing the survey is voluntary. Whether or not you answer the questions will not affect your grade in this class. If you are not comfortable answering a question, just leave it blank.

The questions that ask about your background will be used only to describe the types of students completing this survey. The information will not be used to find out your name. No names will ever be reported.
