

Protect Your Family's Health! Test Your Water for **FREE**

Bring a sample of your water to SHDHD for free Nitrate Testing during business hours or call for more information!

- If you're collecting water from a household faucet, let it run for 5 minutes to flush out any standing water.
- Use a clean plastic container, such as a milk jug or soda bottle, to collect the sample (approximately 1 cup).
- Bring the sample to the address listed below within 24 hours of collection.

We are partnering with the University of Nebraska-Lincoln's Citizen Science Project. Personal information needed will be: name, phone number, email, and latitude & longitude of the well. Data collected will be used in the future on this map:
